allsetuptabs.asp

Description: This page provides a user the ability to choose a lookup table to administer. Administration is the adding, editing or deleting of records in a specific database table.

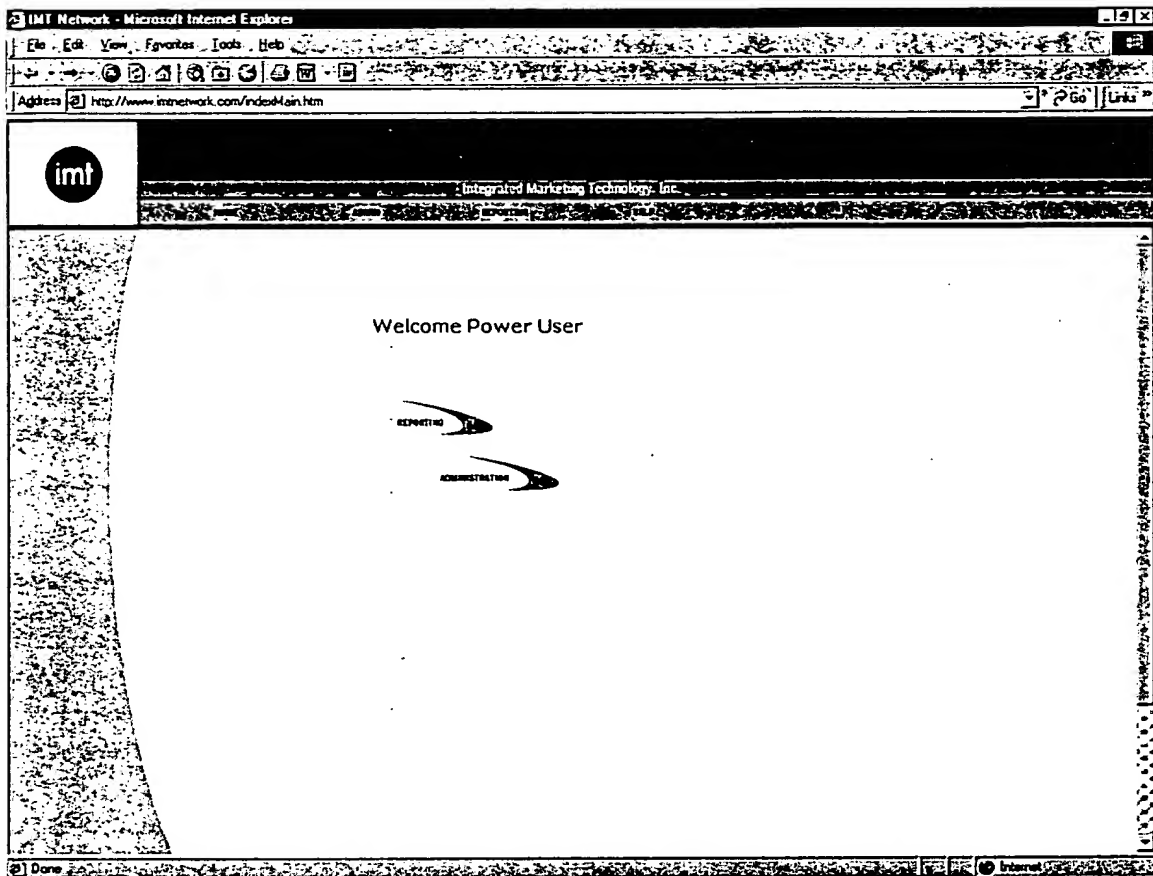

Description: This page presents a user logon dialog box requiring a valid username and password in order to gain access to the application server.

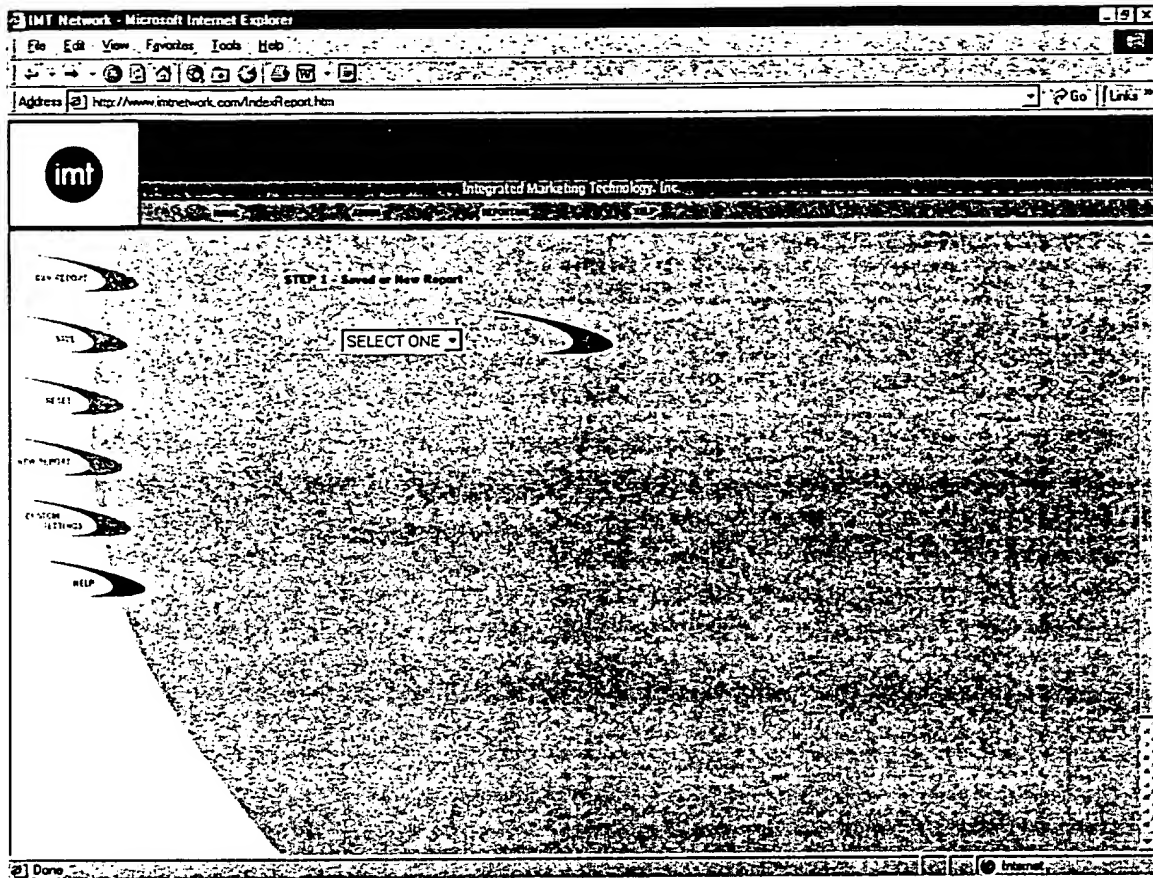

welcome.asp

Description: This page provides a user welcome message and offers an option to choose either administrative functions or reporting functions.

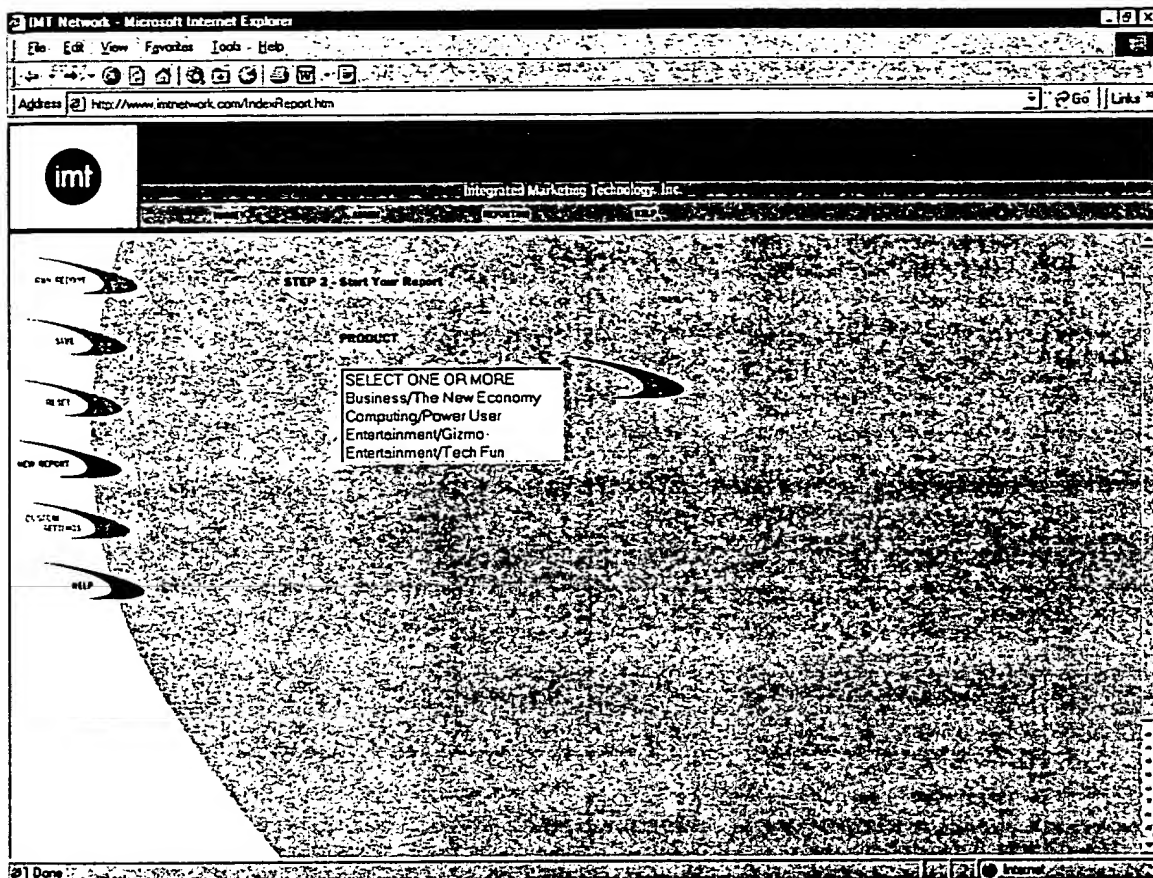

login.asp

Description: This page provides a user the ability to choose between creating a new report or selecting a saved report by selecting a record from the report_defs database table.

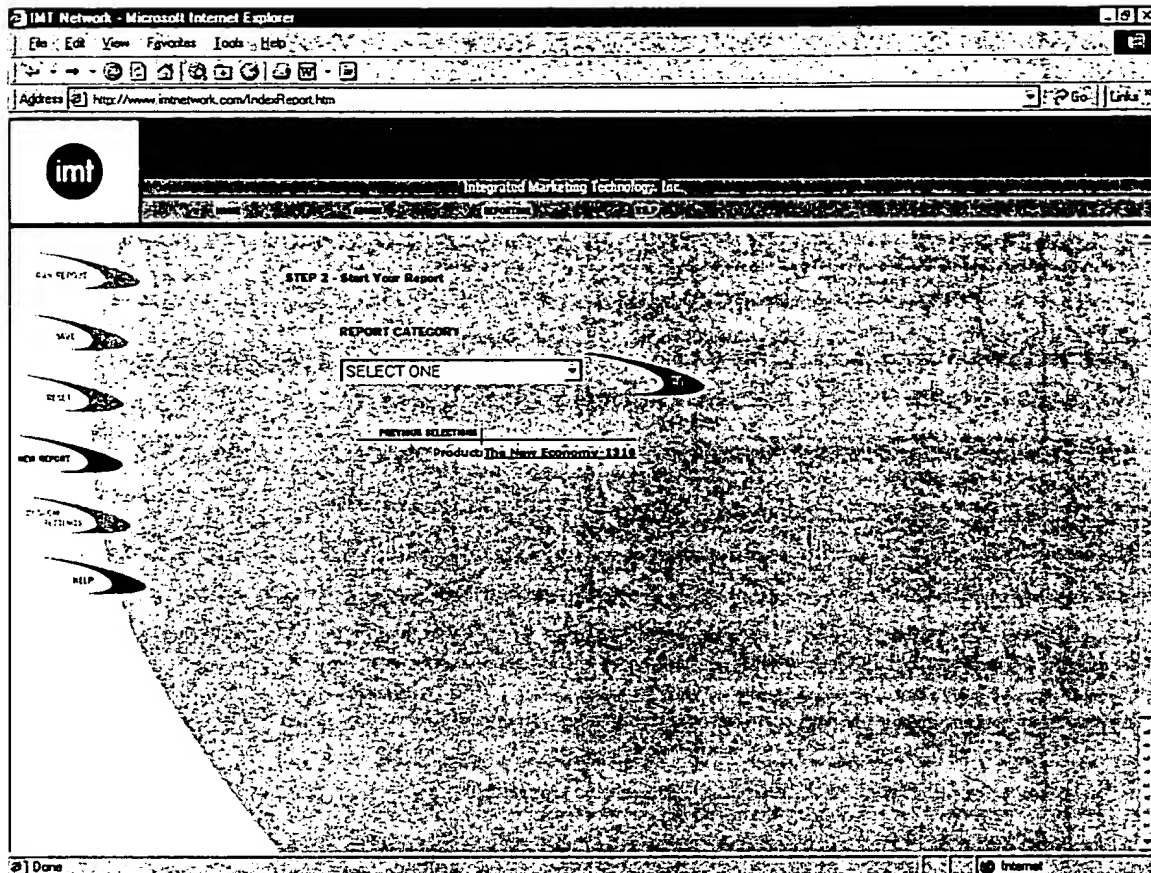

choosecat.asp

Description: This page provides a user the ability to choose a product(s) when creating a new report. This is the first selection in a series of selection required to create a new report.

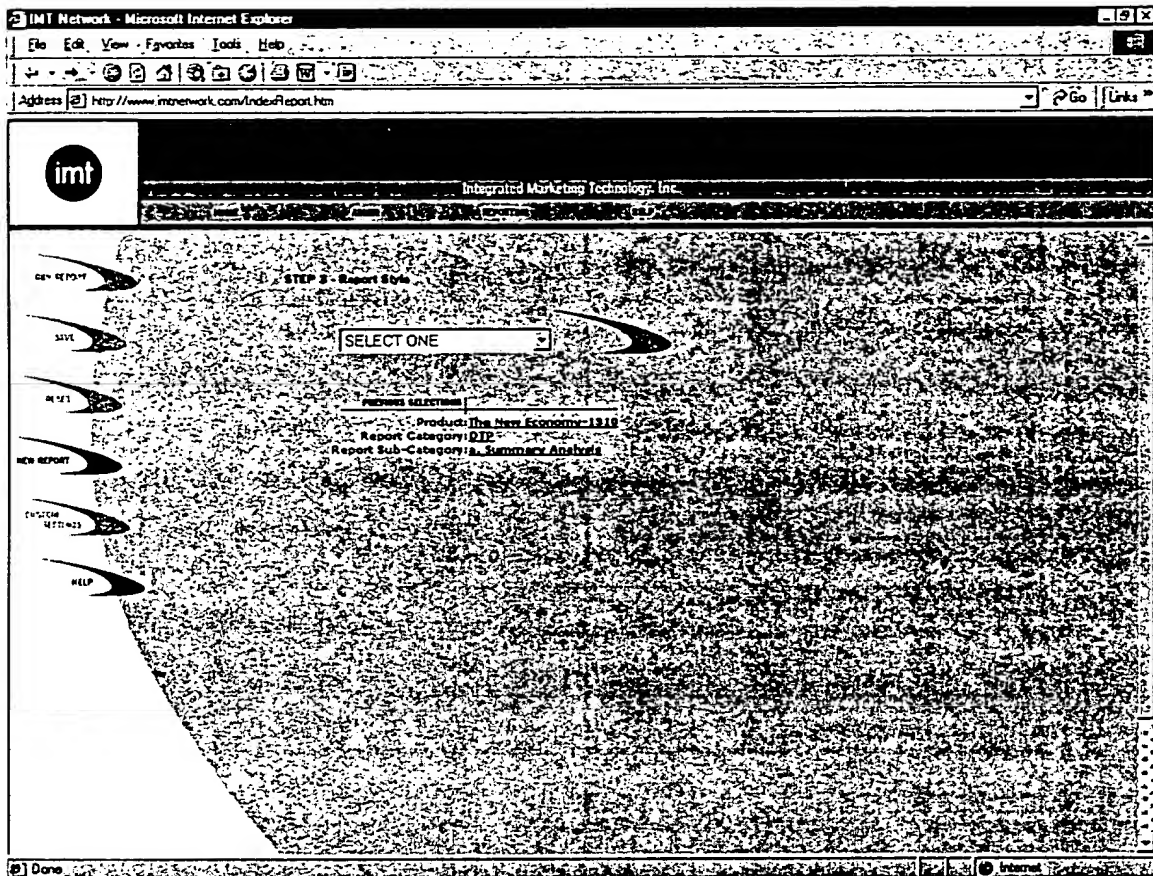

choosecat2.asp

Description: This page provides a user the ability to choose a report category when creating a new report. A report category is a grouping of specific reports (styles). Report categories and reports are stored in the report_cat database table.

chooserpt.asp

Description: This page provides a user the ability to choose a specific report (style) when creating a new report. A report (style) is a pre-defined view of database information.

reporta.asp

Description: This page provides a user the ability pass a text string to the report to serve as a report name. A report name appears in the header of a new report and is stored in the report_defs table once a report is saved.

The screenshot displays a web browser window titled "IMT Network - Microsoft Internet Explorer". The address bar shows the URL "http://www.imtnetwork.com/indexReport.htm". The page features a navigation menu on the left with buttons for "RUN REPORT", "SAVE", "RESET", "NEW REPORT", "CUSTOM SETTINGS", and "HELP". The main content area is titled "STEP 4 - Select Your Report Criteria" and includes instructions: "When you have completed your selections click RUN REPORT to view, print or export your data." Below this is a section titled "NAME YOUR REPORT" with a text input field containing the word "Undefined". Further down, a "PREVIOUS SELECTIONS" section lists the following details: "Product: The New Economy - 1998", "Report Category: RDP", "Report Sub-Category: MARKET ANALYSIS", and "Report Style: SOURCE CATEGORY by Source". The browser's status bar at the bottom indicates the current page is "http://www.imtnetwork.com/choosecat2.asp".

reportb.asp

Description: This page provides a user the ability to pass source selections to a report. A source is a grouping in IMT's proprietary database hierarchy.
